Honorable Steven Page
County Judge
Trinity County
PO Box 457
Groveton, TX 75845

Subject: East Texas Regional Water Planning Area
Draft County Population and Water Demand Projections

Dear Judge Page:

Water supply planning has been a part of the East Texas Regional Water Planning Area (ETRWPA; also known as Region I) for over 20 years now; and it is making a real difference in how we ensure that this vital resource is available to our communities now and into the future. You should have received a letter recently regarding draft projections of population and municipal water demand for Trinity County, Texas, which is located, in part, within the ETRWPA. With this letter, we wanted to provide some additional detail regarding water demand projections for your county.

The Texas Water Development Board (TWDB) developed the draft population and municipal water demand projections for Trinity County, and they are part of the 5th cycle of regional water planning for the ETRWPA. In addition, the TWDB has developed water demand projections for this cycle for the following non-municipal categories: Irrigation, Livestock, Manufacturing, Mining, and Steam-Electric Power for your county. These can be found online at www.twdb.texas.gov.

For your consideration, please review the enclosed summary projection table for Trinity County. This table is derived from the TWDB draft projections for all water-use categories referenced above. We are aware your county also falls within Region H, however this table only applies to the portion located within Region I.

If you do not agree with the draft projections, or would like additional information about them, we want to hear from you as soon as possible. The TWDB has developed specific criteria for revisions to demand projections; enclosed is an excerpt from the TWDB guidance documents governing such revisions. Please forward any projection comments and supporting data you have to your East Texas Regional Water Planning Group (ETRWPG) consulting team representative.

Your ETRWPG consultant team representative is:

Rex Hunt, P.E.
rhunt@apaienv.com
Phone: (512) 452-5905
Fax: (512) 452-2325

Alan Plummer Associates, Inc.
6300 La Calma Drive, Suite 400
Austin, TX 78752-3825

The ETRWPG will be considering these projections at its November 15, 2017 meeting in Nacogdoches. If we do not hear otherwise from you, the draft projections provided herein will likely be accepted for purposes of the regional water plan update to be adopted in 2021.

The ETRWPG will provide ongoing updates of the regional water planning process in this cycle. In the meantime, please send any comments or questions to your ETRWPG consultant team representative. Thank you for taking time to review this information.

Yours very truly,

A handwritten signature in black ink, appearing to read "KH", written over a light blue horizontal line.

Kelley Holcomb, Chair
East Texas Regional Water Planning Group
